# JOSÉ RIZAL IN NUMISMATICS

By

Dr. Mena Crisologo

THE brilliant flame of his life was violently snuffed out by imperial minions who did not comprehend the truth that men may be killed, but ideas are indestructible. His brain was stilled by a bullet's thrust, but his spirit soars o'er an empire's dust.

José Rizal (1861-1896) was a genius and unique in the versatility of his genius. He was a proficient writer, in both poetry and prose. He wrote several poems which stirred the minds of his countrymen. His *Noli Me Tangere* created a tempest. He tried to mask all the misfortunes of his country with philosophic laughter. *El Filibusterismo* opened the eyes of the Filipino youth.

"Where are the youth who will consecrate their rosy hours, their dreams, and their enthusiasm for the welfare of their motherland?"

These two novels were great in their social significance. His innumerable tracts are relics of his sharp mind. His researches on the history and literature of his country expressed his love for study. His eagerness to learn was limitless. There was not a human virtue that he did not want to possess, and there was no point of perfection to which he did not aspire. Master of several foreign languages as well as his native dialects, he was also a painter and sculptor. He was one of the first Filipino specialists in opthalmology and otolaryngology. With a limitless capacity to absorb literary, artistic and scientific knowledge, he was an inspired and inspiring teacher.

But the greatness of José Rizal was portrayed best, not only in his acquired mastery of the different branches of knowledge, but also in his patriotism. Seeing the sad plight of his country, he fought for its freedom through the forces of his ideas and the magic of his words. Persuading his people to accept a new social and political ideal to the extent of inciting the hatred and suspicion of the friars and Spanish authorities, and even his own countrymen, led him to face a firing squad on December 30, 1896. He wanted freedom for his people not in form but in substance, and he died for it.

His martyrdom served as a mirror reflecting the age-old aspirations of his countrymen. It shook his country's pillars, it fanned the embers of rebellion until his country and people got their independence. Dr. Rizal is the embodiment of Filipino ideals and aspirations and as such he deserves the respect, admiration and emulation of his people.

## COINS, MEDALS, BADGES

On the centenary of the birth of Dr. Rizal, a commemorative set of peso and half peso coins was issued in silver (See Nos. 2, 3). The striking was sponsored by the Philippine Numismatic and Antiquarian Society, which

**Dr. Mena Crisologo,** Manila, P. I., member and macrophotographer of the Philippine Numismatic and Antiquarian Society and of the Camera Club of the Philippines, has photographed many coins and medals for the Philippine Numismatic Monographs. A dentist by profession, he is a faculty member of the University of the East's dental college.

suggested the designs. One hundred thousand sets were struck at the Philadelphia Mint.

The medals in the accompanying photos, bearing the inscription PROCESION CIVICA and dates 1909, 1910, were awarded to owners of floats who participated in the civic parade on Rizal Day. December 30 of every year is a national holiday in the Philippines to commemorate the martyrdom of our national hero.

The first Rizal Day was celebrated in Hong Kong on December 30, 1899 (See No. 14). This lapel button was printed in multicolor enamel, red, white and blue, and was distributed among the Filipinos residing in Hong Kong. Since then, it has become customary in the Philippines to honor Dr. José Rizal every year. Each year a special committee is formed to issue medals to commemorate that special event. Medals with different dates, issued on Rizal Day, were awarded to civic spirited citizens, who participated in the affair, or who distinguished themselves in some way or another. The undated lapel buttons issued by different Rizal clubs throughout the country and abroad were souvenir pieces presented to club members.

All illustrations are from photographs taken by the author using the Leica MP, Hektor 135 mm., bellows device. Pieces are from the private collections of Dr. José P. Bantug, Dr. P. I. de Jesus, Don Felipe R. Hidalgo and the author.

## Tokens of Our Pioneer Railroads

# THE WOOD BURNERS

By

Clyde J. Drewing, A.N.A. No. 15331

IT HAS been said, and reliably so, that much of the credit for the rapid growth and development of our country should be given to the railroads. From their early days, areas through which they passed flourished and our key cities of today grew up.

A great interest has always been manifest in the notes issued by the early railroads and much has been written about them. Little, however, has been said about the important numismatic mementoes which the "wood burners," the pioneer of all railroad engines, left to us. These are the so-called "cordwood tokens."

Perhaps reasons for the neglect of these tokens are that very little is known about them and that there are so few of them. The few are so scarce that it is practically impossible to build up a sizeable collection. It is the hope of this writer that if more light was shed on the history of these tokens and the engines and railroads that used them, more collectors would learn to recognize and identify them for what they truly are, possibly uncover other issues and thereby add perceptibly for posterity to a record of their existence.

Great interest in railroad engines is shown by hobbyists who build scale models, railroad fan clubs which schedule train trips, railroad magazines for sale on the newsstands and many museums which have "transportation rooms." The Carnegie Institution in Pittsburgh, Pa., and the Crestline Historical Museum in Crestline, Ohio, display several cordwood tokens. Numerous resorts and public parks throughout the United States exhibit old wood burning engines.

About twenty-five years ago I acquired a token bearing the inscription ½ CORD, NO. 78 on the obverse and the initials M. S. & N. I. R. R. on the reverse. I knew it to be a railroad token but could not determine anything else about it. Years later at a Penn-Ohio convention in Cleveland, I met the late Charles W. Foster who had a small exhibit of similar tokens in a frame. He told me these were cordwood tokens used by the early railroads to buy fuel for their wood burning engines and that the initials on my tokens stood for the Michigan Southern and Northern Indiana Railroad. He prized his tokens very highly. Since then I have tried to obtain as much information about them as possible and report thereon as follows:

The late William Brimelow of Elkhart, Ind., known as "Bill the Coin Man" on radio station WTRC, wrote a short article on the M. S. & N. I. R. R. which was published in the *Indiana Historical Bulletin*, Vol. 18, No. 81, August, 1941. He stated that the M. S. & N. I. R. R. used woodburner tokens which were the size of a nickel or slightly larger, in denominations of one, half and quarter cord. The engineers of the wood burning engines gave them to suppliers in payment for cordwood the latter stacked along the right of way or at "wood up stations." The railroad kept money on deposit at various banks to redeem these tokens at the current price for cordwood (about 90¢ to $1.25 per cord). "Wood up stations" were about sixty miles apart with stations at Elkhart and Kendalville in Indiana, Lawawee Junction, Adrian and Coldwater in Michigan and Wauseon, in Ohio.

The Western Reserve Historical Library in Cleveland, Ohio, has on file old stockholder reports of various pioneer railroads. One report dated 1850 contained a chart of the M. S. & N. I. R. R. which gave the names and numbers of each engine in use on the E&N (East & North)

Divisions and W. D. (West Division) together with the maker of the engine, and the cost of fuel and maintenance used by each engine.

The accompanying chart or tabulation, from the stockholder's report for the M. S. & N. I. R. R. in 1863, shows the number and name of the engine, and the builder of the engines in use in the various divisions at that time, but minus fuel and maintenance costs. Immediately following the tabulation are the names of the builders designated by the number in the tabulation.

The known wood burner tokens of the M. S. & N. I. R. R. designating engine numbers are:

1. E&N Division: Numbers 24, 31, 45, 48, 65, 72, 81, 78 and 87, one of them being counterstamped W. O. Ebersol, and one without a number
2. Western Division: Numbers 20, 33, 35, 48, 60, 84, 88 and one without a number

From *The Numismatist,* XLVIII, March, 1935, page 151:

"Collectors of tokens will be interested in an old token which has come to light at Moncton, New Brunswick. The piece is about the size of a 25 cent piece and has the following inscribed on one side: 'Wood Eng. No. 12, ½ Cord.' Old-timers recall that in 1872, on the old Intercolonial Railway System, engines were refueled with wood along the line, and tokens such as the above were passed to settlers who supplied the wood. The number on the disc identifies the engine driver who was responsible for the fueling, and the tickets were redeemable at the company's purchasing department at Moncton. At about this period, Canada's currency was in a state of flux, the Uniform Currency Act having been passed a year previous, in 1871, these tokens were a popular medium of exchange in various settlements along the line."

*— Burroughs Clearing House Magazine*

From "Canadian Coin Notes" by J. Douglas Ferguson, published in the *Coin Collectors Journal,* June, 1940:

"Mr. W. William's collection is particularly strong in the Canadian series. It was Mr. Williams who presented to the Chateau DeRamezay in Montreal, for their wonderful collection, specimens of interesting tokens as used on an early Canadian Railroad by engineers to pay for the cord wood which they would buy en route for the operation of their locomotives. These tokens would then be redeemed at the current price for cord wood. These tokens are now very rare."

In *The Pioneer Railroads,* a Fawcett book by Hank Wieand Bowman, 1954, page 85 appears a photograph, credited to the Canadian National Railroad System, of a token WOOD/ ENG. NO. 12/ ½ CORD. Under the picture is the inscription "Farmers and others who hauled cord wood to fueling spots were given metal coins like one above. These were redeemable at the Company's office."

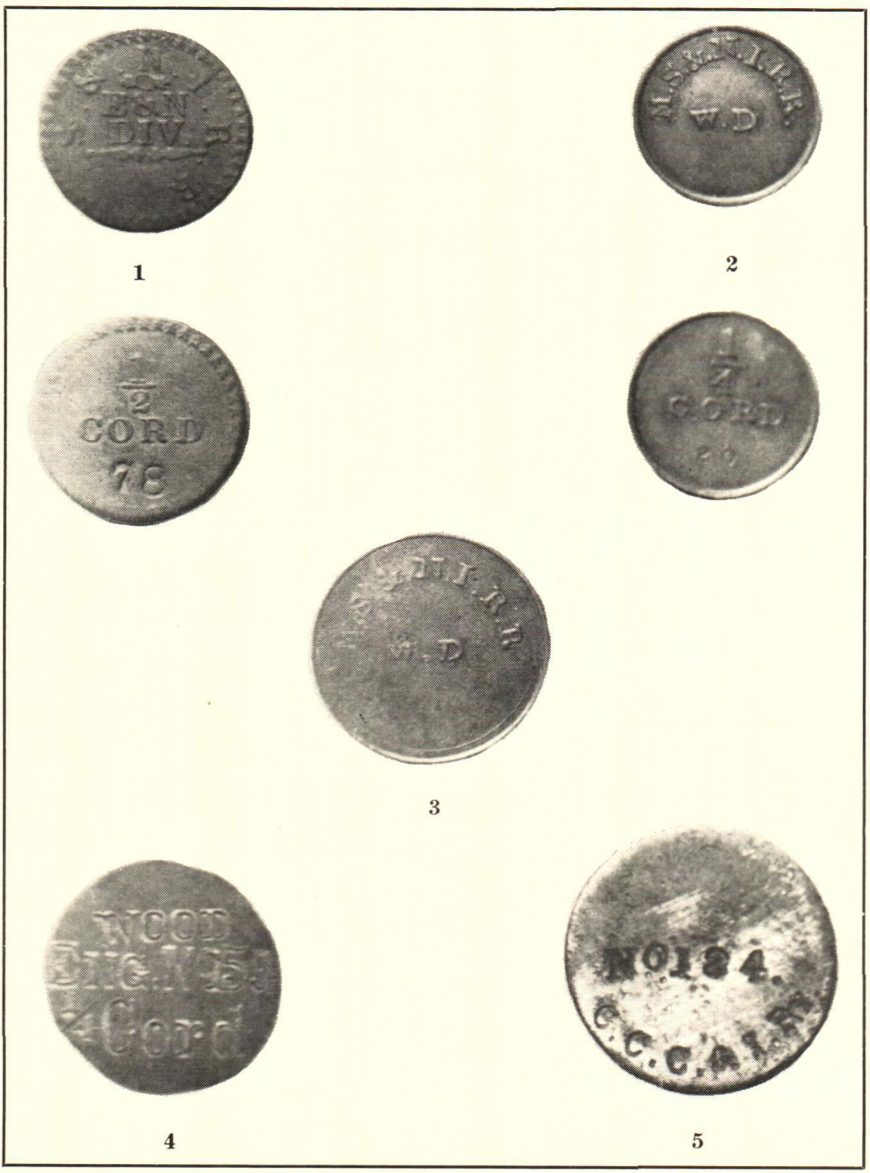
From a letter received from Dr. Ernest G. Hesser, President of the Crestline Historical Society:

"The P. R. R. (Pennsylvania Railroad) used brass tokens when that railroad east of Crestline, Ohio, was known as the Ohio Penna Ry., and the road west later known as the P. F. W. & C. Ry. (Pittsburgh, Fort Wayne & Chicago Ry.). We have on display two of these brass tokens in our Crestline Shunk Museum. I have drawn a copy of it on the enclosed paper, WOOD/ ENGINE/ NO 48/ 1 CORD, size 31 mm. There is printing on just one side. There were tokens for ½ cord which I have seen. As to when the change was made from wood to coal I have not been able to definitely ascertain, probably about 1870."

Crestline, Ohio, was right in the midst of pioneer railroad building. The C. C. & C. (Cleveland, Columbus & Cincinnati) was built first from Cleveland to Cincinnati. Then the Ohio Pennsylvania and the Ohio Indiana Railroads were built to Crestline, Ohio, receiving financial aid from what later became known as the Great Pennsylvania Railroad.

It was hoped that when built these railroads would give access to the west. Where the Ohio Pennsylvania Railroad crossed the C. C. & C. Railroad, Crestline, Ohio, was founded and became a division point with round house and shops. Many of the engineers lived in Crestline and it is suspected that many of the wood engine tokens came from Crestline, Ohio.

Known are wood engine tokens having the following engine numbers: 4, 12, 14, 17, 20, 8, 46, 48, 59, 126 (2), 129, 130 over 170, 147 (2), 153, 169 and one mentioned by Dr. B. P. Wright in his list of store cards in *The Numismatist,* December, 1899, does not have a number. I am unable to give the names as-



1 2 3 4 5

signed to each of these numbered engines as the reports of the P. F. W. & C. Ry. seen to date mention only the numbers of the engines in use for that certain year without going into detail as the M. S. & N. I. Ry. did. The Cleveland, Columbus, Cincinnati & Indiana Railroad must have used tokens at least in a limited way since I have one in my collection marked 1 TON and have heard about a collector with a similar one.

The stockholder's report of the C. C. & C. Ry. for 1856, gives a list of the names and builders of forty-one engines in use at the time. Thirty of these were built by the Cuyahoga Steam & Foundry Co. shop located on Merwin St. near the Cuyahoga River in Cleveland, Ohio. This firm started building locomotives in 1850 but discontinued in 1864 during the Civil War.

From these first two reports it appears that the same type of token was used both in Ohio and in Canada. I have also seen the same type in half cord denominations.

The stockholder's report of the P. F. W. & C. R. R. for 1865, indicates that the railroad had a total of one hundred eighty-seven engines and also mentioned selling locomotives to other railroads. The report of the C. C. & C. Ry., of 1866, states that the use of coal for fuel was discontinued and wood used in January because of the high cost of coal, that the cost of fuel for the year per running mile for each engine was 13 9/10 cents. In 1867 the road had forty-seven locomotives.

Another source says that some of the coal burning engines reverted to the use of wood. The wood burners had no grate bars. Lining the fire box bottom were flat plates drilled with tapered holes one and one-fourth inches at the bottom and three-fourths inch at the top. Some engines were designed to burn lignite.

The only reference to the Great Western R. R. I have been able to find, is that a civil engineer named Colonel Glinton, in 1829 tried unsuccessfully to promote a fund of fifteen million dollars to build a railroad by this name to run from New York to the Mississippi River. He suggested a construction of doubtful value known as the Post & Plank Railroad. The road bed was to be constructed of pilings ten feet apart, topped by three-inch planks set on edge with no iron of any sort to protect against wear of the wheels. It may be of interest to know that in Ohio in 1836, the Ohio Railroad tried this method and constructed twenty miles of railroad to run from Fremont to Cleveland, Ohio. The road was abandoned without being finished in 1843. A railroad named the Great Western was later built out of Chicago to the west and northwest. The New York Central System has a photograph of a poster advertising the Great Central Route of 1874 over the Michigan Central and Great Western Railroad to San Francisco.

# SURVEY OF MEDIEVAL IBERIAN COINAGES

## II — Aragon

By

P. K. Anderson, LM 210 and J. F. Lhotka, LM 334

Continued from September, 1961

### INTRODUCTION

The medieval coinages of Aragon are somewhat more complicated than those of her sister Kingdom of Castile and Leon. The reasons behind this fact can probably be based on the marked differences in which the two kingdoms enlarged themselves during the reconquest of Spain from the Moslems. The expansions of the Castilian kings was done primarily at the expense of the various Moorish kingdoms that had succeeded the great Caliphate of Cordova. Thus as each new area was taken, it was merely added to its neighboring Christian territory.

This was not necessarily the case with the expansion of Aragon since a number of its additions were not Moorish lands but were already Christianized with established feudal customs and governments. Feudal law was a very powerful force in the Middle Ages and even the kings were forced to follow its sometimes unreasonable regulations. Thus the Kings of Aragon could not just sweep aside an established situation in the interests of unity but were required to respect certain feudal obligations. This very often included accepting conditions that were not in force in other domains. The refusal of the King to do so would have automatically induced a revolt by the powerful barons with the possibilities of intervention by foreign nations or the Papacy. Consequently, as Aragon expanded it began to resemble a union of separate states under the control of the same ruler rather than a unified nation with the same laws for the entire land as was the case in Castile and Leon.

The presence of an established coinage in acquired areas was one of the facets of this problem and the Kings of Aragon solved it in a typical medieval manner. They simply continued what had been established prior to their rule and replaced the names and titles of their predecessors with their own names. In some cases, they did not even mention in their legends that they were Aragonese as on the croats and dineros struck in Barcelona. Thus over the years, a somewhat unusual coinage developed in Aragon with, in most cases, a separate coinage for each of the various divisions of the nation. Thus one series of coins was issued for Aragon proper, another for the County of Barcelona, a third type for Valencia, still others for Sicily and the Italian dependencies, and even special issues for Majorca, Sardinia, and such French possessions (Rousillion, Montpellier) as they controlled from time to time. This multiplicity of coin types from what was theoretically the same nation can be confusing if the basic feudal background that made this development mandatory is not understood. It is much the same as if the Kings of Castile had been forced by local custom to strike a distinctive coin series for each of their various mint cities rather than indicating their source by a simple mint mark.

The true Aragonese coinage has its beginning in the dineros and obols struck by Sancho Rameriz (1063-1094) some years after Aragon gained its independence from Navarre on the death of Sancho el Mayor in 1035. The coins issued by Sancho of Aragon are simple and have a "bust right or left" as the obverse type with the King's name and title for the legend (SANCIVS REX). The reverse was occupied by a long-shafted cross rising from a floral base with the legend (ARA GON or IAC CA) arranged horizontally and

divided as indicated by the shaft of the cross.

Sancho's two successors, Peter I and Alfonso I, used the same types with the exception of the change in the royal name on the obverse (PETRVS REX and ANFVS REX). The reverses were also similar but Alfonso did issue some coins using a cross type obverse. He modified the reverse on two types, one being a variation in which a non-floral based cross was utilized while the other reverse used two horizontally arranged letters "E" with an annulet and a crosslet, all in the form of a cross. Circular reverse legends were also used by Alfonso (ARAGONES, ARAGONENSIS).

Ramiro, Alfonso's brother and successor, did not strike coins in his own name and neither did his daughter, Petronila, who succeeded him when he retired to a monastery. Her son, Alfonso II, initiated the first of the multiple series of coins for Aragon since he was also, through his father, the powerful Count of Barcelona. Thus we find that two coin series exist for Alfonso, one for Aragon similar to those of his predecessors utilizing a "bust left" obverse coupled with the floral based cross on the reverse, and another for Catalonia using cross types for both obverse and reverse faces. The legends on the Aragonese series are similar to previous issues with the King's name is given as ANFOS which differentiates him from earlier kings named Alfonso. The reverse legend ARA GON is divided vertically to either side of the cross rather than horizontally. Alfonso's name is not present on the Barcelona issues and instead the obverse has the name of the city (BARCINO) and the reverse is given as CIVI REX. Peter II used much the same types as his father in both series except he did place his name on the Catalonian coins (PET REX) on the obverse.

Peter's successor issued about the same types but there were some changes. On the Aragonese issues, both dineros and obols, James placed the royal name on what is usually considered the reverse, that face with the cross, and placed the legend ARA GON on the face with the royal bust facing the left. Thus in our coin lists we have listed that face of the coin bearing the royal name as the obverse and the bust face as the reverse since we consider the name of the issuer as more important than the formalized bust in attributing the coin. The Catalonian issues of James I are of two types, according to Heiss. One type bears a cross obverse with his name while the reverse consisted of a shield bearing the bars of Aragon surrounded by the city name (BARCINO). The second type consists of a bust left surrounded by the city name with a typical "Barcelona type" reverse (long cross with alternating pellets and annulets). There is, however, some controversy on the attribution of these coins and some experts feel that the bust types belong to James II.

The two immediate successors of James, Peter III (1276-1285) and Alfonso III (1285-1291) did not strike coins for Aragon proper but both struck issues for Barcelona. These are similar to the earlier type except that the royal name and bust left are both found on the obverse of the coins. Heiss attributed both the dinero and its fractions and the croat and its subdivisions to Peter but only the latter coins to Alfonso. In addition to the pure Spanish issues, Peter also struck coins for Sicily which he invaded and conquered from the French during the bitter wars of the Sicilian Vespers. These coins, issued bearing both his name and that of his wife, Constance, the daughter of a former Sicilian king, Manfred, the son of Frederick II, followed the usual medieval pattern in that they are similar to those struck by the earlier Norman kings. The main denomination was the tari. Peter used as types a shield with the arms of Aragon and the old crowned eagle of Sicily. These coins were the first in a long series in which Aragonese arms were used as a principal type.

James II, Alfonso's brother, had ruled prior to Alfonso's death as James I of Sicily (1285-1296) and

during this period he, too, issued coins on the Sicilian pattern. When he returned to Aragon as King, he dropped the Sicilian issues when he abandoned all claims to the island, and struck coins only for Aragon, Barcelona, and Sardinia, one of his conquests. The coins struck for Aragon and Catalonia are almost identical to those of James I and differentiation is sometimes very difficult. Most experts give those Barcelona coins with the bust type to James II. They differentiate the Aragonese issues by giving the ones with the "crude" bust to the earlier King and the "refined" bust types to James II. This is obviously an extremely tenuous procedure and open to some criticism. Alfonso IV, James' successor, struck coins only for Barcelona and Sardinia. His Catalonian issues are similar to previous ones but he gives his name in full on the obverse (ALFONSUS REX) which aids in differentiating him from earlier kings of the same name. He also uses the letter form "U" rather than the older "V" which also indicates their source.

Peter IV is often selected as the dividing point in the Aragonese medieval series since a number of changes take place in the coinage during his reign. Probably the most important is the striking of an imitative gold florin which closely resembles those struck by Florence in Italy. The obverse of this coin had the classical *fleur de lys* and the reverse bears the usual standing facing St. John the Baptist. The main identifying feature is the name of the king (usually just the initial letter of his name) and the name of Aragon in the obverse legend. Peter also issued the usual silver and billon coins for both Aragon and Barcelona. However, after this reign until that of Alfonso V in the Fifteenth Century, no silver or billon coins were struck for Aragon proper and the issues of Barcelona were used throughout the entire kingdom. Peter also struck coins for Sardinia and Majorca using the traditional types. John I, the next Aragonese king, continued the types of Peter during his relatively brief reign. Martin, John's brother and successor, the last member of the old House of Barcelona, struck coins for Aragon, Barcelona, Majorca, Sardinia, Gerona, and Valencia. Valencia had originally been taken by James I many years previously and at that time he had issued some special coins for the area. These followed the pattern of the time and had his bust left and name on the obverse and a floral based cross with the legend VALENCIE on the reverse. Martin issued a more complicated real denomination for Valencia and had his facing bust as the obverse type and a lozenge bearing the arms of Aragon and surmounted with a crown as the reverse type. The reverse legend included mention of Majorca as well as Valencia. His Gerona coins also had a similar lozenge but uncrowned and in a quatrefoil as the reverse type.

The next three kings of Aragon, Ferdinand I, Alfonso V, and John II, all struck large series of coins. Ferdinand issued the gold florin for Aragon proper but his successor Alfonso also reissued a billon coin for the homeland. John also struck silver for Aragon in the real denomination and fractions using a facing bust as the obverse type and a crowned shield with the arms of Aragon as the reverse type. This was the first use of the Aragonese arms on a coin series for Aragon proper. Ferdinand and Alfonso struck the usual Barcelona types both for Barcelona proper and for the county of Rousillion but John struck only the Rousillion series. All issued typical coins for Sardinia, Sicily, Majorca, and Valencia, while John also issued coins for Gerona. Alfonso struck a larger series than either of the other kings with coins for Lerida, Minorca, Naples, and Tortosa as well as those mentioned. With the death of John II in 1479, the medieval period of Aragon comes to its close since the marriage of his son Ferdinand with Isabella of Castile united the Spanish people into one nation. The coinages after his death are usually classed as the first of the modern types and thus

are beyond the scope of this paper.

Prior to the detailed coin lists and the historical outlines of each of the reigns, a table similar to that found in the Castilian section is included. It is basically an orientation chart to show the relationships of the various Aragonese kings and their many territories with the denominations of coins struck in their names at these locations. It should help to clarify the somewhat confusing situation of the numerous varieties of coins bearing the Aragonese mark. Issues of certain of the independent kings of the Aragonese House in the dependencies have been included for completeness.

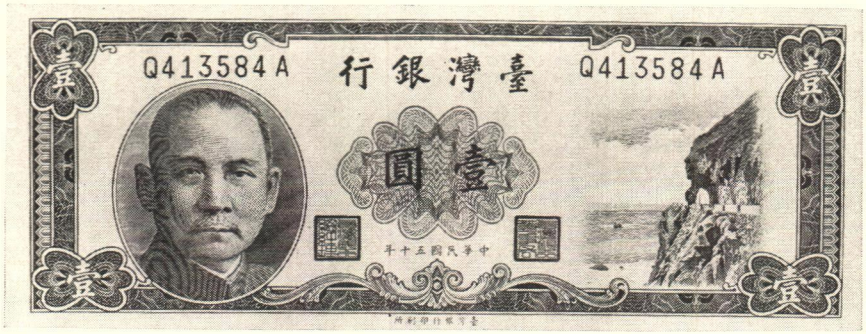
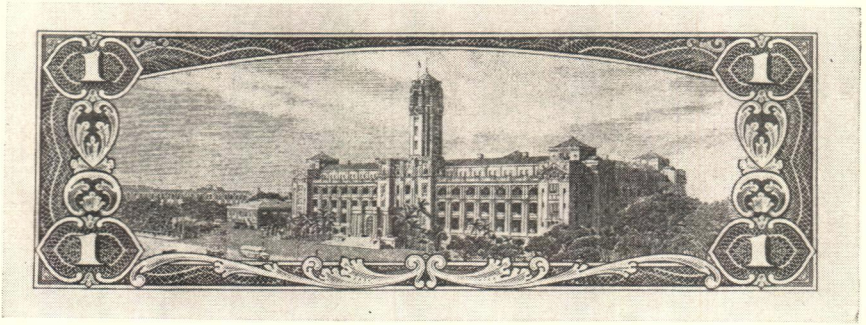
# New Money in Nationalist China

The Republic of China has released a new coin in connection with the celebration of the fiftieth year of the republic. The first of the new coins were issued on September 15 by the Central Bank of China through the branch offices of the Bank of Taiwan. The initial quantity made available was NT$10 million (ten million new Taiwan dollars) of an expected NT$40 million. A corresponding number of paper dollars were to be removed from circulation.

A plum flower within a circle of Chinese inscriptions appears on one side, an orchid and ideographs meaning "one dollar" are found on the other. The composition of the coin is an alloy of copper, nickel and zinc.

Also circulating in Formosa are coins of 10¢, 20¢ and 50¢ denominations, although there is very limited use for the two lowest values. The





50¢ coins are used mainly in pay telephones and in very small transactions such as buying a piece of candy.

This year the Bank of Taiwan also released a new NT$1.00 paper note in a horizontal format and a NT$100.00 note in the usual vertical format.

The former is dated the fiftieth year of the Chinese Republic (1961) while the latter is dated the thirty-eighth year in Chinese with the equivalent Christian era date of 1949 on the reverse (English) side. Other denominations of circulating paper money include the 1¢, 5¢ (both almost never seen), NT$5.00 and NT$10.00 notes. Newspaper clippings and specimens courtesy B. R. Vordenbaum, U. S. # *Notes & Queries*

### Annual Convention of Iowa Numismatic Association

With the Central Iowa Coin Club as host, the 1961 annual convention of Iowa Numismatic Association was held September 30 - October 1 at the Hotel Tallcorn in Marshalltown. The interest shown and attendance of between seven and eight hundred attest to the success of the two-day affair. The thirty-five available bourse tables were stretched to accommodate thirty-eight dealers, and all display space was reserved for weeks ahead. With Ray Janusick of Lostant, Ill., as auctioneer, Frank "Buck" Minor of Moline conducted a 585 lot sale to floor bidders only. Highlight of the sale was a gem proof 1856 flying eagle cent which brought $1,050. Many other coins sold at or above Guide Book prices.

Activities began at 9 a.m. Saturday with the opening of the bourse and exhibits, and the sale of the convention medals. The first auction session and a tour for ladies in the afternoon were followed by a banquet in the Fisher Governor Community Center, to which guests were taken by special buses. After a fine meal, President John Holden of the host club gave a welcoming speech. Then exhibit awards were presented by I.N.A. President Wyard Troja to the following winners: paper money – Claude Bachtell, Don Jensen and Edna Hess; gold coins – Don Jensen, Andrew Klilgaard and Wyard Troja; foreign coins – Philip Budd, Arnold E. Swanson and Andrew Klilgaard; U. S. coins – Wyard Troja, J. Mortimer Pugh, (Austin, Minn.) and W. E. Van Hook; commemorative coins – Andrew Klilgaard, Raymond Ryan and Wyard Troja; medals and tokens – Richard Taber, Glen Hurlbutt and W. E. Van Hook.

At the Sunday business meeting, these officers for the coming year were elected: president, Wyard Troja; first vice president, Don Jensen; second vice president, Philip Budd; secretary-treasurer, Al Eidt; directors, W. E. Van Hook, William Ott, Kenneth Benedict, Dean Oakes and Golby Uhlir. With an 86% increase in its membership during the past year, and with thirty-three local clubs in the state, the Iowa Numismatic Association looks forward to a good year.

### Lady and the Tempter

The delightful picture of "The Lady and the Tempter" on page 1193 of the September *Numismatist* may prove something about the fair sex and money. On the other hand, it may prove also that the Texas banker was using the wrong bait, and that his "approach" was wrong.

**The Lady and the Tempter**

The accompanying picture shows Gaston Di Bello of Buffalo, N. Y., presenting a silver dollar to the granddaughter of General Chairman Smedley at the 1956 CHI-ANA convention. It is submitted as evidence that hard money and the direct approach are more effective. In any event, both pictures prove that these two eminent numismatists have a way with the ladies – another commendable mark of distinction. (P.S. – The little lady's pendant was one of the CHI-ANA convention badges.)

### Chester Krause Acquires Monthly Periodical

The first number of *Coin Press*, October, 1961, under the management of its new owner, Chester Krause of Iola, Wis., is clothed in an attractive format, offset on "slick" paper. Although its publisher is the same as that of the *Numismatic News*, it will be issued once a month under the separate editorship of Al Varner. The *News* will continue as a twice a month newspaper edited by Ed Rochette. This number offers articles on early American Colonial Cents, picture story

of Swiss minting silver two franc pieces from reclaimed five franc coins, a page on the gold crisis, the latest Russian ruble, etc. Subscription is $3.00 a year.

### Uncle Sam Medal

Next year being the sesquicentennial of the linking of our "Uncle Sam" symbol with Samuel Wilson, a medal

commemorating the event has been issued by Homer C. Platt, P. O. Box 164, Manchester, Iowa. Producer is the Metal Arts Company of Rochester, N. Y. The piece is available in bronze at $1.50 each; silver-plate, $2.00; sterling silver, $7.50. The latter is limited to two thousand. Size, 22.

### Coin Exchange

Dear Sir:

I am interested in exchanging Portuguese commemorative coins mentioned in Yeoman's catalog for American and Mexican commemorative coins of about the same catalog estimates. Correspondence on this subject is invited.

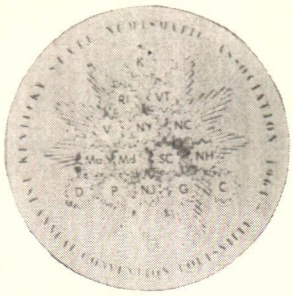
### Kentucky Association's Convention Medal

The official medal issued by the Kentucky State Numismatic Association in connection with the first annual convention of the Association in Louisville November 3-5 was designed by Allen Blankenbaker and commemorates both the Civil War centennial



and the State of Kentucky. Two of the latter's sons, Abraham Lincoln and Jefferson Davis, were born in Kentucky and served as Presidents at the same time. Both men left the state early in life, both served in the Black Hawk Indian War, both served in Congress.

The obverse carries bust portraits of Lincoln and Davis with the legend UNITED WE STAND, DIVIDED WE FALL . . . CIVIL WAR CENTENNIAL. The reverse bears a replica of the famed "Kentucky cent," so-called because the top star in the triangle represents Kentucky. These coppers were struck in England in the early 1790s. The reverse legend refers to the first annual KSNA convention. Size, thirty-eight millimeters.

David L. Simmons, President of the host Louisville Coin Club, has announced sole distributor of the medal is James, Inc., 105 W. Main St., Louisville 2. Shawnee Hills Medalists of Harrisburg, Ill., is the striking agent. Bronze medals are $2.00; sterling silver, limited to a thousand pieces,

$10.00; platinum limited to ten pieces, will be struck on special order only, $500.00.

### Windy City Success Story

The Chicago Coin Club's first three-day Fall Festival, held at the Sherman Hotel October 13-15, was the biggest numismatic event in the Windy City since the CHI-ANA convention in 1956. To say that it exceeded expectations would be the understatement of 1961. Over thirteen hundred persons paid the $1 registration fee and an estimated double that many visitors were "on the house." The committee heard no complaints about business from the ninety-four bourse tables, but many compliments on the best lighted bourse and exhibit rooms seen yet. Most dealers who brought their own lights didn't bother to plug them in. Dealers came from such diverse locations as New York, California, Florida, Canada, Texas, Ohio, Nebraska, etc. General Chairman was Harry X Boosel.

**Medalet of Chicago Coin Club's Fall Festival struck in goldine. Ten in silver were also made for members of the Festival committee.**

Exhibits were truly varied and outstanding, three being award winners at the Atlanta A.N.A. convention. Winners were as follows: Foreign coins — Harry Flower (also best-in-show), T. F. Pokorney and A. R. Birkholz; U. S. coins — Hugh M. Knight, James T. Harris and Victor L. Sandlin; paper money — George D. Hatie, Fred R. Marckhoff and Michael M. Dolnick; medals and decorations — Irving M. Moskovitz, Gary C. Krug and Walter P. Huber; miscellaneous — Raymond Lietz, Philip J. More and James A. Dalton. Special medals for noncompetitive invitation exhibits went to Nathan A. Eglit, Art Lovi, Julian S. Marks, Irving M. Moskovitz and Arlie R. Slabaugh.

The three auction sessions conducted by Ben's Stamp & Coin Company were well attended, with many lots going to floor bidders. The sixteen hundred lots realized a total of

## Chicago Bank's Fair Exhibit

**Glittering with four thousand gold coins mounted in a revolving plastic polysphere and in a stationary display stand, the exhibit of the First National Bank of Chicago was an eye-catcher at the recent Chicago International Trade Fair. $126,300. Ben reported strong interest in political and historical items, foreign coins, proofs and numismatic books, but the demand for sensational and speculative coins is waning. He sees a return to collecting for pleasure and study. Choice and rare items sold well, as indicated by the following lots: proof 1856 f.e. cent, $1325; 1858 l.l.f.e. cent, proof, $765; proof 1864 small motto 2¢, $4650; 1867 nickel with rays, proof, $2900; complete set proof Barber quarters, $1325; 1852 proof dollar, $1325; 1854-D $3 gold, vf, $760; 1930-S double eagle, unc. $1425; 1913 proof buffalo nickels, pair, $250. As in any auction, a few real bargains went to alert bidders.

Two of the Club's "banker" members supplied favors for the lady registrations, and the Club ladies served free coffee and cookies from time to time. There was no banquet and no tours, but much visiting, shopping and informal gathering. Perhaps what a guard in the exhibit room reported sums up the appeal of the show. Four men entered and one was heard to say, "This isn't the shoe exhibit." Replied another, "No, but this is better – let's stay a while." They did.

### Buck Is a Buck On Buck Island

The Buck Island Administration has issued one buck and half buck tokens as media of exchange for purchases of goods and services on Buck Island in the British Virgin Islands where they have the same value as U. S. dollars and half dollars, according to a press release. The buck coin is 1/64″ smaller in diameter than the U. S. silver dollar. Its weight is the same. The half buck is similar in weight and size to the U. S. 50¢ piece. The buck has been struck in nickel silver; the half bucks, in both copper and goldine.

The obverse of the buck shows the head of a typical island buck or goat similar in type to Africa's steenbok or small antelope. Above the head is the Greek word EIRENE meaning "Peace" and below is the legend ONE BUCK. The reverse has a relief configuration of Buck Island with its precise location in navigational terms of 18°25′45″ N – 64°33′30″ W. Above and below the relief configuration appear BUCK ISLAND and B.V.I., respectively. The half bucks are of the same pattern.

Buck Island lies 28 miles to the east of St. Thomas, U. S. Virgin Islands where Buck Island Administration maintains its mailing address. Currently Buck Island serves as a fueling depot for the Leeward Island

fishing fleets. Growth of population has necessitated the striking of additional coinage on an annual basis. Maximum issue of the pattern coinage totaled 1085 of the one bucks. The half bucks were limited to 515 in copper and 515 in goldine.

Distribution of available pattern coinage is being handled by Harry J. Forman, P. O. Box 5756, Philadelphia 20, Pa.

### NENA Convention

With the Springfield Coin Club as host, another successful New England Numismatic Association convention was held in Springfield, Mass., on October 14 and 15. Although hampered in some ways by state "blue laws,"

**NENA medal**

there were no complaints from the dealers or the record 675 persons who registered.

There were twenty-five exhibit entries in the nine categories, covering ancient coins, colonials, foreign, odd and curious, paper money, so-called dollars, and others. Best in show awards went to the following: first, James Clapp, Jr., ancients; second, Howard E. Davis, Sr., colonial; and Mrs. Francis D'Esopo, "Overrun Countries of Europe." Harry Lessin showed slides and spoke at the banquet on "So-Called Dollars."

At the business meeting on Sunday, it was agreed that next year's convention at Northampton would cover three days. John Skribiski of Amherst, Mass., will be General Chairman; Northampton Coin Club is host. Other convention officers of the Club are: Fritz Tidlund, President; Edward Merski, Vice President; Francis Klaes, Treasurer; Howard E. Davis, Sr., Executive Secretary. Tentatively the 1962 convention is set for October 19-21 in the Hotel Northampton and Wiggins Tavern.

### Society of Paper Money Collectors

Collectors of paper money – United States, foreign, colonial, obsolete bank notes, Confederate, or any other – have their own organization at last. Officers to serve through 1962 are: President, Hank Bieciuk; Vice President, James J. Curto; Treasurer, Glenn B. Smedley; Secretary, George W. Wait; Historian, Earl Hughes; Legal Counsel, Ellis Edlowitz; governors, Dr. Julian Blanchard, Harold L. Bowen, Amon Carter, Jr., Philip H. Chase, Ben Douglas, Eric P. Newman, and William A. Philpott, Jr. The Society will operate on a calendar year basis, but will hold its annual meeting in conjunction with the annual convention of A.N.A., with which the bylaws call for affiliation.

Annual dues are $4 the first year and $3 thereafter. Charter membership is open until December 31 only, and those who apply in 1961 will be considered paid up to the end of 1962. Plans call for a quarterly publication, of which Hank Bieciuk will act as editor until further arrangements are made. Assisting him in this venture will be C. J. Affleck, Fred R. Marckhoff, Foster W. Rice and Arlie R. Slabaugh. Obtain membership applications from George W. Wait, P. O. Box 165, Glen Ridge, N. J., and submit them before December 31.

### Copy of Massachusetts Pine Tree Copper Made

Of the pattern usually referred to as the Massachusetts pine tree copper or cent little is known. S. S. Crosby in his work on Colonial coins says

**Copy by Copley**

"This probably unique piece, now in the collection of William S. Appleton, formerly owned by J. Colburn of Boston, who obtained it from Edward W. Hooper, a schoolboy collector of coins. Hooper purchased it from a grocer at the northerly part of the city, who found it many years before while excavating on his premises in the vicinity of Hull and Charter St., for the purpose of making an addition to his dwelling. We take this to be the first pattern for a Massachusetts cent and the characters upon the obverse to be abbreviations for 'one cent of lawful money.' "

Obverse, pine tree in center, legend around MASSACHUSETTS STATE, to left of tree 1D, LM to right. Reverse is Goddess of Liberty seated upon a globe facing left and supporting with her left hand the staff of liberty and holding cap extended in her right hand; dog sits at her feet; LIBERTY AND VIRTUE around, date 1776 below.

One thousand copies of this unique piece have been struck in bronze and one hundred in silver by the Copley Coin Co., 581 Boylston St., Boston 16, Mass. To assure that this facsimile may always be identified for what it is and to prevent it being passed off as an original, the word COPLEY is plainly stamped at lower right of the copy's reverse.

# MINT MARKS ON VENEZUELAN COINS

By

Peter Franquet, A.N.A. No. 18112

Venezuelan coinage has had a rather nebulous history, but also a high degree of consistency since 1874. Throughout its history, however, each engraver or mint director has left his mark. These marks constitute curious forms – all the way from anchors, to torches, bumble bees, cornucopias, corn stalks and hooting owls.

The marks of various mint officials are proud symbols of their handiwork. They are, so to speak, symbols of guarantee and quality.

**Obverse and reverse of the new Venezuelan bolivar**

Venezuelan coins, with the exception of gold, were minted as follows: 1802 through 1830 in Caracas; 1843 through 1852 in London and Birmingham; 1852 through 1913 in Paris and Brussels; 1914 through 1958 in Philadelphia; 1960 in Paris.

Venezuelan gold was minted in the following locations: Bs. 100, 1886 through 1889 in Caracas; Bs. 25. 1875 in Paris; Bs. 20, 1879 through 1880 in Brussels; Bs. 20, 1886 through 1888 in Caracas; Bs. 20, 1904 through 1912 in Paris; Bs. 10, 1930 in Philadelphia. Bs. 5 and 50 in gold were trial patterns of extreme rarity.

Our story today deals with the new one bolivar piece dated 1960, recently minted in Paris and distributed in Venezuela. The Venezuelan Government in 1960 ordered from the Paris Mint forty-eight million pieces of one-fourth bolivar, twenty million pieces of one-half bolivar, thirty million pieces of one bolivar and four million pieces of two bolivars. The first part of this shipment, consisting of the one bolivar piece has arrived. The others will follow later.

It is curious to note that from 1914 to 1958 all Venezuelan coins were minted in Philadelphia. However, in 1960 the Paris mint was again resorted to. Why this change?

According to a statement issued by the Venezuelan Treasury the Philadelphia Mint was first approached for the minting of this new lot of coins. However, the latter replied that it could not adjust the tolerance of the alloy in the composition of each and every coin, as is required by Venezuelan law, except by lots of coins. The Venezuelan Treasury, therefore, requested bids from the Royal Mint in London and the Paris Mint.

The latter submitted what the Venezuelan authorities considered to be the more favorable bid. By tra-

dition, Venezuela has had most of its coins minted in the same mint as that now preparing the present issues. Albert Desiré Barré, renowned engraver, and descendant of a family of engravers, designed the Venezuelan coin with the effigy of Simon Bolivar. His first coins appeared in 1858 in denominations of one-half, one, two and five reals. The obverse has the same design as French coins. At the beginning of the first world war, transportation difficulties compelled the Venezuelan authorities to make use of the Philadelphia Mint. This was in 1914.

Since the time of the Romans, engravers have left their mark on coins and the French were diligent followers of this custom. The first silver coins for general circulation in Venezuela with the effigy of Simon Bolivar were five, ten, twenty and fifty centavos, and the one venezolano (or five bolivar piece). These were dated 1873, 1874 and 1876 with the exception of the venezolano piece which was minted in 1876. This well sculptured piece has an anchor, a bee and the letter A, in addition to the name of the engraver. The letter A has traditionally stood as the mark of the Paris Mint. The other marks probably stood for the engraver of that period and the Director of the Mint.

Since that time, all Venezuelan coins minted in Brussels and Paris have borne some sort of mint mark, representing the officials of the mint during their respective periods. England and the United States, however, have chosen to remain anonymous and faithfully reproduce the word BARRE only.

The curious part of past and present Paris mintings is that only in 1858 and in 1876 did the letter "A" appear as a symbol of the Paris Mint. Subsequent mintings carry fish and fowl, but no letter "A."

We are informed that the marks on the present coins are symbols of the Paris Mint and that of Monsieur Labonnellie, Director of the Mint. A son of the original engraver, Barré, had as his symbol that of the bumble bee; another mint director chose a corn stalk. The mark of the present director is the owl, and the horn of plenty symbolizes the Paris Mint.

When the first new one bolivar pieces hit a few business places in Caracas, some erstwhile "numismatists" thought they had hit the jackpot, reminiscent of the small date, medium date and no date cents of recent vintage. When an official of the Treasury bank in Caracas was eagerly approached by these lads seeking reassurance on their "valuable" coins with strange symbols, the official could not restrain his laughter. He explained to them that since 1913 Venezuelan coins have carried no strange marks until now, and if they waited a similar period of forty-eight years the coins without mint marks would potentially command a premium. The eager beavers were therefore advised that if they paid more than one old bolivar for the new bolivar they should charge the difference to initiation fees in the field of numismatics.

---

**The two Mints** now in operation in the United States are located at Philadelphia and Denver. Coinage operations were discontinued at the San Francisco Mint in March of 1955 for reasons of economy and the plant is now functioning as an assay office. Coins minted at Denver are identified by the small letter "D"; those which were made at San Francisco carry the letter "S"; those minted at Philadelphia are identified by the absence of a mint mark, with one exception, the war-time five cent piece minted in Philadelphia.

---

**During World War II,** when restrictions upon the use of metals made a change in the alloy of the five cent piece necessary, a silver-copper-manganese substitute was adopted. In order to more easily distinguish between the regular and the substitute alloy, the mint mark was changed from its usual position to the right of Monticello and appeared on the war-time five cent piece in a position above the dome of that building. The letter "P" was used on all Philadelphia five cent coins for the first and only time in the history of that Mint. After the war a return was made to the regular alloy and the Philadelphia identification was discontinued.

## MANUEL ISIDORO BELZU

"Bolivia is ungovernable."

**Bolivian silver half peso of 1850**

Manuel Isidoro Belzu was born in La Paz, Bolivia, on April 4, 1811, and died in the same city March 27, 1865. He married Juana Manuela Garrita.

He was a typical caudillo – the native chief type who ruled as ruthless dictators. He was an uneducated, professional soldier. Born in humble circumstances, stimulated by his early poverty, he learned to hate the more fortunate classes. He was idolized by the people of the lower classes.

In 1847 he overthrew President José Ballivian, and put José Miguel de Velasco in as president. In 1848 he rebelled against Velasco and assumed the presidency, which he held until 1855.

The seven years of Belzu's rule of riot, disorder and disgrace have hardly been equalled in any society. It was upper class versus the lower classes, the latter championed by Belzu. In 1855, he resigned the presidency in favor of his son-in-law, General José Cordoba.

In 1855 Belzu left for Europe, then returned and headed a revolt against Mariano Melgarejo. Melgarejo attacked him in a bloody street battle in La Paz and killed Belzu with his own hand.

The administration of Belzu was beset by revolts, discontent, and executions. When he resigned in 1855, he stated "Bolivia is ungovernable."

While in office two coins, in gold and silver, were issued bearing his portrait:

1854 gold half escudo. Obverse, M. Y. BELZU PRESID. CONSTITUCIONAL, with bust left, and below, the date. On the reverse, LA PATRIA AL Y. DEFENSOR DE SU INDEPAN. Also, a female is standing with an infant in her right arm, a child standing on either side of her. Fifteen millimeters in diameter, weight 26 grams.

1850 silver half peso. Obverse, M. Y. BELZU PRESIDENTE CONSTITUCIONAL DE BOLIVIA, the bust faced left, and below, the date. Reverse, LA FUERZE NACIONAL TRUINFO DE LA ANARQUIA, 34 millimeters.

# Recent Commemorative Medals

Two more commemorative medals in the Heraldic Art series have been struck. The Kansas medal was issued in sterling silver (6,100 limited) and forty-eight gold, serially numbered. The Civil War centennial medal was struck in a limited issue (7,700 serially numbered). For information, write Heraldic Art, Box 5891, Cleveland 1, Ohio.

**Kansas statehood medal**

On the obverse of the Kansas medal appears a pioneer woman and boy walking to left. She holds a sheaf of wheat, he a sunflower stalk; in background is original territorial capital at Pawnee, in left foreground is Topeka state house. KANSAS STATEHOOD / 1861 at top, 1961 in exergue between cottonwood sprays. On the reverse, elements of the state seal are seen as a pioneer plows behind two-horse team facing left. Thirty-four stars are symbolic of Kansas as the thirty-fourth state. Above, AD ASTRA PER ASPERA ("To the stars through difficulties"); in exergue relics of nations figuring in Kansas history: Spanish halberd, flint lance, French cross.

**Civil War centennial medal**

# *Numismatic Vignettes*

■ We take for granted the name of the issuing government on modern coins, also the date and denomination and, to a great extent, the various mottoes, devices and emblems thereon. We know that these markings have developed with the passing of time and improved with advances in the art of making coins. But what about their origin? Basically, it is the markings which distinguish a struck "coin" from a lump of metal of specified weight.

This interesting observation is found in *A Numismatic Manual,* by John Yonge Akerman, Taylor & Walton, London, 1840. "As the act of impressing a seal or signet was an understood sign of solemn compact, from the most early period; and as engraved seals and signets were undoubtedly in general use long anterior to the invention of coinage, it appears highly probable that the original idea of impressing a stamp on the uncoined lumps of gold and silver was derived from the common application of a seal to wax. The earliest coins may be looked upon, therefore, as pieces of sealed metal; which in fact they are, it being well known that, at first, coins were impressed only on one side."

■ Collectors and students of ancient and medieval coins would do well to acquire or borrow this book: *A Numismatic Manual,* by John Yonge Akerman, Taylor & Walton, London, 1840. Its section headings are: Greek Coins; Roman Coins; English Coins; Anglo-Gallic Coins; and Irish and Scotch Coins. Scattered through the text are fine wood cuts of twenty-five rare pieces. Of the seventeen plates, twelve are remarkable line drawings of more than one thousand types, designs, portraits, symbols and arms. Although small in size, they are distinct, are capable of magnification, and are quite useful in attributing many early coins.

■ According to A. Barton Hepburn (*A History of Currency in the United States,* The Macmillan Company, 1924), the term "sound money" probably had its origin in the auricular test often applied to coins. This test is also called "ringing" a coin, and consists of dropping it on a counter or other hard surface to see if the resulting ring is that of a "sound" or genuine coin. A plausible theory which indicates that the author was a banker – not a numismatist or collector of proof coins.

■ There must be many different reasons why collectors and numismatists attend meetings and conventions. We appreciate the following from a charming lady in Birmingham, whose nickname is the name of a coin and who made her convention debut at Atlanta. *"The Numismatist* took on an entirely different light to me – having gone to the convention. The names became personalities . . ." Few of us have this lady's captivating personality, but most of us are more interesting when we are known – when we cease to be merely names. Anyone who does not practice the art of converting names to personalities is not getting full value for the hours he spends at his hobby. Make new friends and preserve the old ones.

■ Not news, but maybe you didn't know that nine of the thirty-five U. S. presidents are portrayed on a total of twelve different coins, counting the 1903 Louisiana Purchase gold dollar issue as one. Only Washington is on three, but four others appear on two each. The earliest of the twelve holds several distinctions among U. S. coins. It is the only commemorative silver dollar; was the first to bear a president's portrait; is our only dollar without "one dollar" on it; and our only coin to bear a date (1900) later than the year of striking (all were struck on December 14, 1899, the one hundredth anniversary of Washington's death).– GLENN S.

## Saint Patrick Medal

The latest in the Educoin series is a Saint Patrick medal, of which 2,900 in ten gauge .999 fine silver, serially numbered pieces were struck; size, 1 17/32". Twenty-six presentation pieces, not for public sale, lettered

A through Z, were made in .999 fine silver. Platinum pieces are subject to inquiry but in no case will more than nine be produced. Make inquiries of Educoin Co., Box 12188, New Orleans 24, La.

The Shrimp Festival medal (properly, Blessing of the Fleet) was issued for the Pelican State Coin Club, Morgan City, La. The piece will be redesigned and struck from year to year. Six hundred fifty serially numbered .999 fine silver, ten gauge, were issued of which five hundred are available to the general public. Fifty in sterling were made for the club members. There is also an unlimited gold anodized aluminum issue.

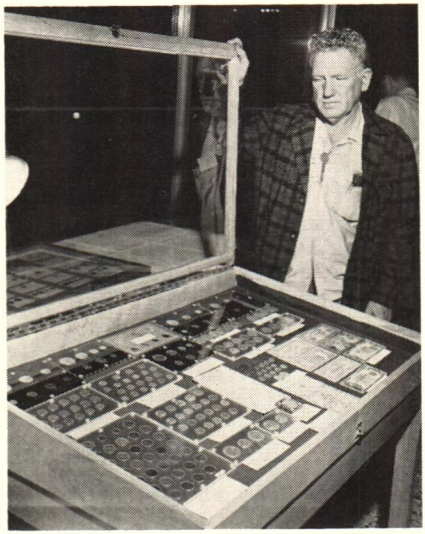
A special feature of the August 28 meeting of **Albuquerque Coin Club** was a talk by our long-time member Warren E. Benton, who has made large cents his specialty in fifty years of collecting. He traces his interest in this series to finding a specimen in an excavation. He described the fascination of the warm glow of old copper and related many collecting experiences, including procurement of a scarce item from Farran Zerbe. Warren concluded by listing reference works available on large cents, and displaying a sampling of his collection. Exhibit Chairman Earle George urged members to prepare their State Fair exhibits, and Judge M. Ralph Brown gave tips on what the judges look for in making awards. — EDNA P. FITZ, Publ. Chm.

The **San Diego County Inter-Club Numismatic Council's** fourth annual Coinarama drew a throng of enthusiastic collectors to the Stardust Hotel on October 8. Out of forty-seven displays, the coins and currency of the Philippines while a U. S. colony won best in show for Aage F. Anderson of La Mesa. Other prize winners were: first awards – Fred E. Lawrence, Oregon centennial trade tokens; Jose Rocha Ramos, early Mexican coins and barter money; Charles Jackson, metals used for making coins from ancient to modern times; and



**A. T. Andersen won best in show at the San Diego Coinarama with this display of coins and paper money issued for the Philippines while it was under U. S. administration.**

LeRoy Meyers, U. S. fractional and large and small size paper money. Second awards went to: Catharine and Stuart Edgerton, Caroline Fink, and Mattie Knickerbocker. Winners of third awards were: Kenneth Hedges, Dennis Phelps, Harvey Rose, Bobbie MacDonald, Paul Hamm, Leonel C. Panosh and Thomas McDaniel. — CATHARINE EGDERTON

The twenty-two in attendance at the August 26 meeting of **Toronto Coin Club** stood in silent tribute to the memory of Arthur Lavine who died on August 2. A respected member of the Club, Arthur was on the executive committee and was the donor of a handsome trophy for meritorious exhibits. R. C. Willey of the **Nickel Belt Coin Club** was guest speaker, outlining briefly but lucidly the history of coinage in Australia and exhibiting a number of BU pieces from the antipodes. (Now – stone the crows – we can imagine one reason why Australians complain at too many of their rarities crossing the Pacific.) Grateful appreciation for the fine talk was tendered by Leon Safer. Kenneth Bunnett exhibited two very fine Prince Edward Island cents of 1871 of a curious variety with the serif of "E" in Prince and in Edward wholly separate from the upright. This coin is No. 168 in Charlton's catalog.

With our honorary member John Jay Pittman as special speaker, thirty-two members and their friends attended the September 23 meeting. From his unrivalled store of knowledge, Pittman recounted the events leading to the discovery of the more famous numismatic forgeries. He recommended that budding collectors establish a good relationship with a reputable dealer while acquiring and studying coins. He stressed the reading of pertinent books and periodicals for information and keeping up to date. Our Treasurer continues to accept orders for the Club's medallion in aluminum, bronze, sterling and 22-carat gold.—H. A. CRAIG, Editor

Members of the **Rochester Numismatic Association,** one of the oldest clubs in the United States, will celebrate the fiftieth anniversary of its founding on January 6, 1962. The day-long festivities will be capped with a banquet at the Hotel Powers. Unfortunately, the late George J. Bauer was the last founding member who attended the first meeting on January 4, 1912. To commemorate the event, a special dollar size medal will be struck by Alphonse Kolb, as illustrated.

A limited issue of numbered sterling silver medals will be available at $10.00, and a pair of bronze and nickel-silver medals will be $5.00 for the two. Orders should be sent promptly to Howard F. Osterman, 433 Tarrington Road, Rochester 9, N. Y., accompanied by remittance in money order or certified check payable to Rochester Numismatic Association. Mail orders will be sent immediately after the celebration on January 6, 1962. — ROBERT E. OGG, Sec.

**Grand Island Coin Club** held its first coin show September 24 at the Grand Island YWCA; 344 people registered, but attendance was estimated at over 400; thirteen dealers were in the bourse. There were a number of coin exhibits, with the three top awards going to Elmer G. Nelson for odd and primitive coins; H. J. Knickrehm, for U. S. gold commemoratives; Dave Schmidt, for mint errors. — ELMER G. NELSON, Sec.-Treas.

With a near capacity crowd of one hundred five (twenty-three guests), the **Oak Park Coin Club** held its October 6 meeting in the Oak Park Arms Hotel. After several reports on Club activities, the members enjoyed the premier showing of A.N.A. slide set No. 23, "Coins and Early Christianity." This proved to be a most interesting review of the coins related to Bible times. Like many other clubs, we appreciate the work of the A.N.A. Visual Education Committee and hope that it produces other slide sets for future showings. Custodian of Slides Mike Dolnick was a welcome guest at this meeting. An even dozen outstanding exhibits were provided by D. G. Anderson, James Babka, Don Doswell, Harry Flower, Jim Grebinger, Monty Lewis, Gene Millner, Elmer Moller, Walter Nemecek, Tom Nolan, Helen Olenicki and Glenn Smedley. — S. A. VAN PETTEN, Sec.

At the October 2 meeting, members of the **Phoenix Coin Club** promised full support of the first Phoenix Coinarama to be held next February 16-18 at the Ramada Inn. As this will be at the height of the tourist season, those who plan to attend are advised to secure bourse table and room reservations at once. There will be exhibits, an auction and banquet. Everyone who attends is assured of a fine time, and the Club promises them matchless weather and unequalled Arizona sunsets. We urge you to consider a mid-February vacation in Phoenix and participation in our Coinarama. — DOTTIE DOW, Pres.

Last February a number of numistically inclined employes of Kaiser Aluminum Chemical Corp. in Ravenswood, W. Va., formed the **K E R A Coin Club.** A constitution and bylaws were adopted and the following officers elected: President, James Wood; Vice President, Fred Painter; Secretary-Treasurer, Walter Booker; Board members, Willard Riley, Kenneth Cole and David Wright. The Club is now A.N.A. number 42847. Full membership is open to all employes, associate to their wives. Children may become junior members. Officers and Board members meet the second Tuesday evening monthly to plan the regular meetings held the fourth Sunday afternoon. The Club's first big project was setting up a booth at the July 22 picnic. Although the Kaiser Employee Recreational Assn. is composed of many clubs, none had ever done this before. Lucky registrants (forty) received coin prizes. There was an exhibit of U. S. coins and Whitman folders, and an "auctionmatic." One coin was attached to each of a couple dozen cards, on which anyone could write his name and bid for the coin. A 1950-D nickel brought $5.00. The booth was successful in drawing attention to our Club and probably will be repeated at future affairs. We were saddened at the sudden death of our president, James Wood (A.N.A. No. 29290) on August 27 while on vacation. Vice President Fred Painter moved up to President and Mrs. Willard Riley was elected to fill the vacancy.

At a meeting of **Monmouth County (N. J.) Coin Club,** attended by over one hundred fifty persons, a resolution was adopted requesting the issuance of a coin to commemorate the tercentenary of the State of New Jersey. It is felt that such an honor by the Federal Government is due the State, which was one of the original thirteen Colonies and is high in the history of our country. The resolution is to be sent to various Federal officials and agencies having to do with coinage. A copy of it is being sent to other clubs in New Jersey with a request for their support. — GEORGE W. SCHUELER

With thirty-eight attending, the **Monterey Peninsula Coin Club** held its 86th meeting on September 18. Its bank will waive check fees, since the Club is a nonprofit organization. Plans are underway for a celebration of our seventh birthday next March. A nice display of Civil War tokens, Confederate bills and fractional currency was presented.

At the September 27 meeting of **Indianapolis Coin Club,** the spotlight was on Wilson Pollard who displayed and explained his extensive collection of numismatic errors. He concluded by predicting future prices of some presently common numismatic items, leaving many of us gasping at the advances he expects. — RALPH A. BROWN, Corr. Sec.

The newly organized **Northern California Numismatic Association** has set September 7-9, 1962, as the dates for its first coin show. It has reserved the entire second floor of the Jack Tar Hotel in San Francisco, and arranged with Leo Young of Oakland to hold the auction. Space is available for fifty-five bourse tables at $40 each, and Bourse Chairman Wendell Hooker and Frank Roza, 930 "C" Street, Hayward, recommend early reservation. Exhibits Chairman is Rudy Gjurovich, 726B Northrup, San Jose. — DENNIS N. HOOKER, Pres.

At the October 4 meeting of **Panhandle Coin Club,** Patty Speck gave an informative talk on the health fair to be held at Chadron State Teachers College. Don Briggs of Alliance was appointed Treasurer to replace Fay Seveland who recently moved from Chadron.

Fifteen members attended our October 18 meeting in Chadron City Hall. Ed Coates displayed a frosted head proof set, which was the first that many of us had ever seen. Tommy Donohue displayed his collection of Lincoln and small Canadian cents and other coins. A discussion of our newsletter, "Heads Up," brought out the unanimous desire to have it continued with the addition of a trading post feature. — TED KADLECEK, JR., Reporter

Richard Rosholm exhibited and spoke on curious money used in the Far East at the October 5 meeting of **Kenosha (Wisc.) Coin Club.** Dick explained that silver was the base of most coins of the South Seas, China and Thailand. His display included teeth from dogs, fish and other animals, sea shells and seeds that were once used as money by South Sea island natives. There were also beads and necklaces used by American Indians as money and in trading. Officers were nominated for the election to be held at the November meeting at Sheridan Lanes. — N. EMORY MISCHLER, Publ. Chm.

The committee has met twice with Don Sherer, Assistant to the General Secretary of A.N.A. The Detroit Coin Club has a number of members experienced in convention work, outstanding exhibitors such as Irving Muskovitz and George Hatie, and such distinguished numismatists as James Curto and Harold Bowen. At a recent Club meeting, we were pleased to have as visitors Wilfred Rowe, Club President in 1941-42, Harry X Boosel of Chicago and Jay Deets of the **Grosse Pointe Numismatic Society.** President Ben Stocker's banter with these distinguished men was both sprightly and informative. We have embarked on an informative and educational program designed to reach all levels, and will present slides, letters and papers at nearly every meeting. — DANIEL C. PARKER, Sec.

James A. Brown spoke before the 333rd meeting of **New Jersey Numismatic Society** on "Methods and Dangers of Inventive Coin Cleaning and Cleaners." The 205th meeting of **Bay Cities Coin Club** featured a talk by Karl Brainard on "Highlights on Coins" which was illustrated with slides. Karl pointed out the exact points on various types of U. S. coins where they first show wear. Too often a coin is described as uncirculated when a close inspection will show it to be AU. Karl proved that by knowing just where to look on a coin for the first point of wear a collector can save himself trouble and money, too. Displays were: foreign coins by Robert Young, Japanese paper money by Everlyn Blad, and Chinese and Indian coins by "yours truly." — E. CAROLYN NESTRICK, Sec.

The hundred and five members and twenty-five guests of **Missouri Numismatic Society** were pleased to have Eric P. Newman, member No. 4, as the speaker at the October 9 meeting. A widely recognized numismatic authority, Eric spoke on the background study leading up to his talk on the 1804 dollar at the A.N.A. convention in Atlanta. This talk was prompted by the exciting and revealing facts which his two years of research on the subject had revealed. Also it was timely because of recent publicity on the Zerbe 1804 and 1805 dollars. He used a large photograph of the Zerbe 1804 dollar to point out how, in his opinion, the alterations on these two coins were accomplished. Only recently has he found letters about these very coins in the October, 1939, and January, 1940, issues of *The Numismatist*, Newman and other collaborators hope to complete the writing of a book on the 1804 dollar shortly. Two other charter members, Arthur Thilking and John Stevenson, were present at this meeting at which seventeen new members were enrolled. — MRS. BERNICE STEVENSON, Sec.

The **Tampa Coin Club** will be sponsor to the Florida Mid-Winter Coin Show next January 18-21 in the new Pan-American Building on the State Fair grounds in Tampa. Those wanting information or reservations should contact Harry O. Adams, P. O. Box 3296, Tampa, Fla., promptly.

Registration will begin at 9:30 a.m. on Friday and continue through the three days. Charles Speight is General Chairman and also is in charge of the bourse. Again this year there will be dealers from Oregon, California, Washington and British Columbia. The program includes an auction, the Saturday evening banquet and entertainment, and the ever popular coffee bar where free coffee, doughnuts and cookies are served to those registered for the Jamboree. Judge Brown congratulated Peter Cable of Santa Fe, grand prize winner at the New Mexico State Fair numismatic competition, on the excellence of his Indian Cent collection. The U. S. currency display of Ned Elder received special commendation, not only for its quality and handsome presentation but for the inclusion of descriptive captions

which made it a favorite of the non-collecting public. Junior member Joe Jameson took over the auctioneering chore and came through with a fine job. — EDNA P. FITZ, Publ. Chm.

At the August meeting of the **Pacific Coast Numismatic Society,** "Pioneer Coins of the West" was the theme of exhibits. Clifford H. Bloom read a paper on the "Numismatic Side of the Western Frontier" and gave interesting comments on the pioneer coins in his exhibit. There were fifteen exhibits by the forty members and twelve visitors attending.

Other hobbies were featured at the September meeting, and seventeen exhibits included miniature packaged soap, rock minerals, fans, stone age implements from Yap, etc. Dr. Elizabeth L. Rees of Oakland exhibited part of her extensive collection of souvenir spoons and held our interest with a talk on the subject.

Leaving it to each member to create his own theme, the October meeting exhibits were on numismatics in general. Guest speaker John Mattern, Detective Sergeant of the San Jose Police Department, told us much of value about coin collection security and brought out points of law bearing on it and on dealing with minors. Attendance was fifty-eight, including two dozen guests. Dennis Hooker gave an account of the newly organized **Northern California Numismatic Association,** of which he is president, and gave much credit for its rapid growth to our president, Milton Strauch. — MRS. John Barnes conducted the October 21 meeting of **Date Empire Coin Club** of Indio, Calif., due to the hospitalization of President Ward Hefley. The members reëlected incumbent officers for another year. Guest speaker Walter Snyder of Los Angeles told us about large cents and their origin. We had several out of town visitors and admitted three new members. — DONNA LAUBSCH, Corr. Sec.

A display of odd and curious monies won a first prize for James T. Phoegin. The outstanding collections of bank notes and paper money belonging to L. A. Cook and Paul M. Whisonant attracted much attention. Twenty-two states and Canada were represented by the registered visitors, and there were thirty dealers from the Eastern seaboard in the bourse. A feature of the convention which pleased all was holding the exhibits and bourse in separate rooms. Also, approval was given to increasing our annual fee to $3.00 so that the high caliber of the Society's efforts can be continued. President Les Copan announced that Past President Robert Eveleigh has been appointed Society Historian and will be pleased to have any mementos of earlier meetings and activities for the record. Tom Robinson narrated a script on "Numismatic Terms" which was accompanied by excellent slides prepared by the program committee. — NORMAN W. WILLIAMS, Publ. Rep.

# KENNEDY AND LINCOLN MEDALS
## STILL AVAILABLE IN BRONZE

To date, all platinum and silver medals in the Presidential Art Series have been SOLD OUT. Currently, Kennedy and Lincoln bronze medals are available at a cost of $2.50 EACH. The Kennedy bronze medal is the medal that President Kennedy purchased to distribute on his mission to Europe last Spring.

These medals, like all medals in the series whether platinum, silver or bronze, contain unusually high STANDARDS OF WORKMANSHIP and FINE HIGH RELIEF SCULPTURING. These qualities, plus the fact that the precious medals (platinum and silver) are produced in LIMITED QUANTITIES, contribute to the increasing value of the medals.

Both the Kennedy and Lincoln medals were struck by the MEDALLIC ART COMPANY, the only American company devoted exclusively to sculptured bas-relief. The intricate design and sculpture work was done by MR. RALPH MENCONI, an internationally recognized sculptor in the field of full portrait and high relief work.

The Presidential Art Medal Series is a CONTINUING PROGRAM in which three or four medals will be struck each year until the program is complete. New medals will be struck thereafter as Presidents are inaugurated.

This exclusive offering will be a treasured possession whether you desire only one or the entire series. The PRACTICAL SIZE of the medals (slightly larger than a half dollar) makes them particularly well suited to display in an album, which will be offered in early December.

Orders are filled as received. We suggest that you select and order your Presidential Medals today. Ohio residents add 3% sales tax. DEALERS' INQUIRIES ARE INVITED.

*Washington Medal Scheduled for December. In early December, Presidential Art Medals, Inc., will introduce the George Washington medal . . . third in the series. This medal will contain the same high standards of workmanship and fine high relief sculpturing as its predecessors in the series . . . the Kennedy and Lincoln medals.*

Solved at last is the problem of labeling coin albums, plastic holders and tubes with surfaces not suitable for pencil or pen. Just cut the date, title or phrase from the sheet, soak it in water, and slide the decal from the paper onto the object.

The gold lettering matches the printing in all Whitman albums and PlastiClad boards. It is printed on transparent acetate for neat appearance on any color background.

## *ANNOUNCING*
## *An Official Medal*

## *Lost-wax Cast in Sterling Silver*

GETTYSBURG, the greatest battle of the Civil War, fittingly commemorated by a high water mark in American medal making, the issue of a sterling silver medal cast by the lost-wax process. For those who appreciate a medal as a work of art, this will be a treasured and increasingly valued possession.

A LIMITED EDITION of 3500 serially numbered sterling silver medals will be cast. Each medal is $2\frac{7}{16}$ inches in diameter and has a thickness of $\frac{1}{4}$ inch. This issue is officially sponsored by the Gettysburg Numismatic Society, A.N.A. No. 32281.

LOST-WAX CASTING was the method used for producing many of the finest Renaissance medals and is the time-honored technique for transferring sculpture from the model to bronze or precious metals. In this process, each medal requires individual attention through the many steps from modeling the wax to hand-finishing the silver.

A DESCRIPTIVE BROCHURE accompanies each medal.

**Platinum (pure) medals will be available, serially numbered to 25.**
**Price on request.**
**Silver (sterling) medals, available now, serially numbered to 3500.**
**Delivery will be made in the order in which received.....$35.00**

# UNITED STATES PATTERN COINS

**We present a choice selection of United States pattern coins from our large stock of this series. Attributions are to "U. S. Pattern, Trial and Experimental Pieces" by Adams and Woodin, or "AW" numbers (available from us for $7.50 postpaid) and "U. S. Pattern, Experimental and Trial Pieces" by Dr. J. Hewitt Judd "J" numbers (available from us for $10.00 postpaid). All coins are in Proof condition as issued unless stated otherwise. Satisfaction is guaranteed on all purchases.**

**Patterns may be collected in many different ways . . . a pattern type set of different designs and denominations, year sets of patterns, Proof sets with all of the coins in aluminum or copper, etc. The collecting of pattern coins by series, however, remains the most popular way to acquire them. After all, what is more logical to add to a collection of choice regular issue cents, nickels, etc. than a representative group of patterns of the same denomination?**

**As we stated in our catalog of the Maj. Lenox R. Lohr collection of patterns, we are now just on the threshold of pattern collecting. The interest in pattern coins is growing by leaps and bounds as more numismatists become familiar with the pattern series and the fascination it holds. Considering the rarity and condition of the pieces, pattern prices today are very reasonable. This is especially true when the rarity of patterns is compared to the rarity and price of scarcer regular issue coins. Today's reasonable prices will become tomorrow's bargains.**

# NUMISMATIC REVIEW, VOL. II, NO. 6

The Christmas issue of the *Review* will be mailed early in December. Beyond this vague promise we are not prepared to go. We only hope it will be in your hands in time to assist Santa Claus in his Annual Distribution of Goodies to the Family, and to the Collector in the Family. The issue will be a fat one, although at the moment it is difficult to say in what this fatness will consist. Like you, we are hoping for the best.

## MAIL BID SALE No. 103

Closing date the latter part of January. If you wish to bid, I will appreciate your request at once so I will know how many catalogs to print. They will go in the mail the last week of December.

My sales are "Bid by Mail" exclusively, every bidder has an equal chance.

There will be many, many rare and choice items in this sale which obviously are singles. An auction is the fairest way of making them available to collectors. The sale will include:

Select uncirculated mint sets from 1940 to 1960.

Colonials and Half Cents, many of the half cents sharp Uncirculated.

A very extensive offering of Large Cents 1793 thru 1857. Varieties attributed to Sheldon and Newcomb including several Rarities 6 and 7. There will be at least a dozen 1793 including both Chain and Wreath in E.F. and 30 or 40 1794 from good to uncirculated. Every collector of Large Cents will have a wide choice.

Every date and mintmark of Small Cents 1856-1956 in uncirculated or proof. These were assembled by a discriminating collector years ago. The 1856 Flying Eagle is a choice uncirculated, the 1877 is proof. The Lincolns are top quality, including proofs 1909-1916.

The Nickels vary from good to proof, the 1877 is proof and many of the early years of Buffalos sharp strike uncirculated.

There will be Two Cents, Three Cents and Half Dimes circulated, uncirculated and proof.

Bust and Sitting Liberty dimes, quarters, half dollars and dollars with many uncirculated before 1858 and proof after 1857.

The Barber "Liberty Head" series will vary from good to proof including scarce dates and mintmarks. The 1913 dime, quarter and half in proof.

Every date and mintmark of Standing Liberty half dollar in choice uncirculated, some of the toughies such as 1919-S are Gems.

The Morgan and Peace dollar offering will be unusually good, for example the 1893-S strictly uncirculated. I had a "Want" on this one once for seven years.

Also in the sale: Commemoratives, Tokens, So-Called Dollars, Gold, Odd and Curious, Currency, Coins of the world in copper, silver and gold.

Altogether over 3,000 lots including lots for investors.

Again, if you expect to bid, please request your catalog right away.

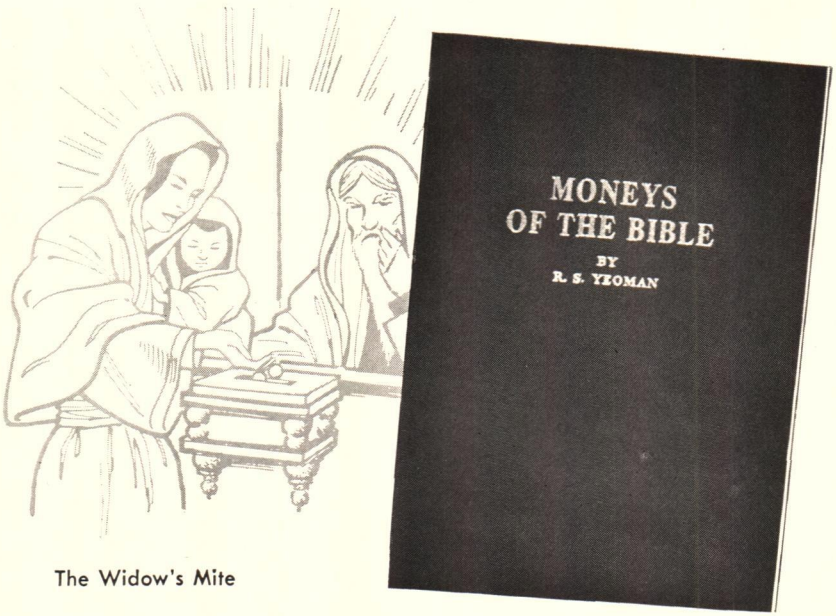
## Whitman Coin Reference Series



The Widow's Mite

# Moneys of the Bible

A chronological story of the coins mentioned in the Old and New Testament Books of the Bible and up to and including the Second Revolt in the years 132 to 135 A.D. This book will help the Bible student to understand the media of exchange used in Biblical times and will tell the collector where his coins are mentioned in the Bible. Included are many Biblical quotations that refer to coins, such as the widow's mite; the 30 pieces of silver; the penny in the fish's mouth; the money-changers in the temple; etc. Easy to understand, this new Whitman reference book will be interesting for beginners as well as advanced collectors.

# BRILLIANTIZE

## MAKES COPPER, SILVER, OTHER COINS BRILLIANT INSTANTLY . . . *Safe for proof coins*

"After having tested your product for about a month, may I add my name and my partners to the growing list of people who sing your praises. Never before have I seen a chemical do the job of lifting surface dirt off a coin and keeping it off as your does. We wish to stock this item and use it. BRILLIANTIZE is better than anything else on the market — Believe me, I've tried them all! My partner and I have two large stores." — New York

"I was very pleased with the first coin I cleaned with BRILLIANTIZE (all the rest, too, of course). It is the best coin cleaner I have ever used." — Georgia

Very recent dealer orders: $400.00, Ohio; $400.00, Massachusetts; $300.00, New York; $400.00, Wisconsin; $200.00 Ohio; $400.00 New Jersey; $200.00, California, and many, many orders for lesser amounts from $150.00 in Canada to orders from every state in the United States including Hawaii and Alaska.

"Due to increased sales, we are forced of necessity to carry a larger stock." — Ontario, Canada.

"I was very much satisfied . . . BRILLIANTIZE is by far the best I have ever tried." — Massachusetts.

Our booklet on coin cleaning is free, a copy is included in every BRILLIANTIZE kit. Authors of the booklet include the late Burton Saxton, a leader in the American Numismatic Association, and also a president of the California Association.

# "WASHINGTON BORN VIRGINIA . . ."

The original obverse die of this undated 1792 Washington piece was recently found in the possession of heirs of Jacob Perkins. We acquired this rare die and struck a limited number of pieces in copper and a handful in rare metals.

This important restrike is a future rarity. The die is now in the A.N.A. collection at the Smithsonian Institution.

We offer the copper piece in white plastic case, gold inscribed, and with descriptive card inside cover for only $5.00, postpaid and insured. And for those who desire rarity, the silver piece (only 27 struck) is available for $125.

## ANYONE WANT A HOBBY?

It seems to me that too much "collecting" today is "accumulating" or "investing," with the emphasis on how much profit can be made in a hurry.

Some of us long for the days when coins were collected for the fun of it – not as an investment but as a relaxation, like golf, tennis, gardening, reading, or pleasant conversation.

I don't object to "profits" but as a dealer in *foreign coins* only, cannot promise much immediate return except the fun you should be getting from a *pleasant hobby.*

My stock of minor foreign coins is perhaps one of the best in the world. If you want to collect for fun, where prices are reasonable and scarce coins are sometimes available, you will find my free price lists of interest. Please write.

The unique KoinTye slide contains an uncirculated quarter encased in an inert plastic KoinTain. Both sides of the quarter are visible. It will never tarnish or lose its brilliance in this exclusive KoinTain case.
